

# DOAN CHINH TAM

Oulu, Finland / [tamdoan3923@gmail.com](mailto:tamdoan3923@gmail.com) / +358 41 576 4554 / [GitHub Profile](#) / [Portfolio](#)

## Summary

Active IT student with hands-on experience in backend development, REST APIs, and database management. Skilled in Java, Spring Boot, and secure coding practices. Passionate about scalable systems, software security, and collaborating in diverse teams.

## Experience

<b>Game QA Trainee</b> , Spectarium – Oulu, Finland	Jun 2025 – Aug 2025
<ul style="list-style-type: none"><li>Tested game features in Unity and reported issues to developers, improving product stability.</li><li>Used GitHub Desktop for version control and collaborated with C# developers in a real software team.</li><li>Gained problem-solving skills and attention to detail, supporting backend testing and debugging.</li></ul>	

## Education

<b>OAMK, Bachelor in Information Technology</b>	Aug 2023 – Present
<ul style="list-style-type: none"><li>GPA: 4.72/5</li></ul>	

## Projects

<b>Fishing Spot Sharing Platform</b>   TypeScript, MongoDB, Azure, React, CSS, JWT. <a href="#">View Project</a> <a href="#">Live Demo</a>	May 2024 – Present
--	--------------------

- A web application that allows users to discover and share fishing spots with photos and descriptions.
- Integrated secure photo upload and storage using Cloudinary.
- Deployed and hosted the application on Azure for scalability and reliability.

<b>Movie Review and Showtime Platform</b>   JavaScript, Postgre SQL, Azure, AWS, React, CSS, JWT. <a href="#">View Project</a>	Apr 2023 – May 2023
--	---------------------

- A full-stack web application that enables users to explore movies, submit reviews, and engage in discussions.
- Integrated TMDB and Finkkino APIs for movie data and implemented authentication with JWT.
- Client is deployed on Azure and database is deployed on AWS

<b>GoSell Application (Clone Tori.fi)</b>   Kotlin, Jetpack Compose, MVVM, Firebase (Auth, Firestore, Cloud Storage), Java (Spring Boot). <a href="#">View Project</a>	Mar 2025 – May 2025
--	---------------------

- A mobile marketplace application designed for local product buying and selling.
- Implemented features such as product listings, search, location-based browsing, authentication, and real-time chat between buyers and sellers.
- Designed following MVVM architecture for clean and scalable mobile development.
- Integrated Firebase services for authentication, data storage, and cloud storage support.

## Skills

**Other:** Secure coding practices, Software security, Problem-solving, Agile/Scrum

**Languages:** English: Fluent, Vietnamese: Mother tongue, Finnish: Basics

**Database Systems:** PostgreSQL, MongoDB, SQL

**Tools & Technologies:** REST APIs, Git, CI/CD, Docker, Cloudinary, Firebase

**Programming Languages:** Java, Spring Boot, Javascript, Typescript, NodeJs, React, HTML, CSS, PostgreSQL, MongoDB, ExpressJS, Azure, AWS
