DOAN CHINH TAM

Oulu, Finland / tamdoan3923@gmail.com / +358 41 576 4554 / **GitHub Profile**

Summary

Active IT student with hands-on experience in backend development, REST APIs, and database management. Skilled in Java, Spring Boot, and secure coding practices. Passionate about scalable systems, software security, and collaborating in diverse teams.

Experience

Game QA Trainee, Spectarium – Oulu. Finland   Jun 2025 – Aug 2025
- Tested game features in Unity and reported issues to developers, improving product stability.
- Used GitHub Desktop for version control and collaborated with C# developers in a real software team.
- Gained problem-solving skills and attention to detail, supporting backend testing and debugging.

Education

OAMK, Bachelor in Information Technology   Aug 2023 – Present
- GPA: 4.72/5

Projects

Fishing Spot Sharing Platform | TypeScript, MongoDB, Azure, React, CSS, JWT.   May 2024 – Present
View Project
- A web application that allows users to discover and share fishing spots with photos and descriptions.
- Integrated secure photo upload and storage using Cloudinary.
- Deployed and hosted the application on Azure for scalability and reliability.

Movie Review and Showtime Platform | JavaScript, Postgre SQL, Azure, AWS, React, CSS, JWT. View Project   Apr 2023 – May 2023
- A full-stack web application that enables users to explore movies, submit reviews, and engage in discussions.
- Integrated TMDB and Finkkino APIs for movie data and implemented authentication with JWT.
- Client is deployed on Azure and database is deployed on AWS

GoSell Application (Clone Tori.fi) | Kotlin, Jetpack Compose, MVVM, Firebase (Auth, Firestore, Cloud Storage), Java (Spring Boot). View Project   Mar 2025 – May 2025
- A mobile marketplace application designed for local product buying and selling.
- Implemented features such as product listings, search, location-based browsing, authentication, and real-time chat between buyers and sellers.
- Designed following MVVM architecture for clean and scalable mobile development.
- Integrated Firebase services for authentication, data storage, and cloud storage support.

Skills

Other: Secure coding practices, Software security, Problem-solving, Agile/Scrum

Languages: English: Fluent, Vietnamese: Mother tongue, Finnish: Basics

Database Systems: PostgreSQL, MongoDB, SQL

Tools & Technologies: REST APIs, Git, CI/CD, Docker, Cloudinary, Firebase

Programming Languages: Java, Spring Boot, Javascript, Typescript, NodeJs, React, HTML, CSS, PostgreSQL, MongoDB, ExpressJS, Azure, AWS
